ABOUT US

Q-Iman is an educational institute which has been setup up by students, for students.

We understand the difficulty students face when they first embark on their journey to pursue Islamic Sciences. We came up with innovative methods to help students learn quicker and strengthen retention.

Our objective is to provide access to the Islamic Sciences and Arabic Language to everyone, no matter who they are, and where they are from. And make it easy for individuals to grasp and comprehend complex structures and concepts. Our dream is that every household and every individual have access to these sciences.

WHO WE ARE

Students, graduates and scholars from various Islamic institutions, who have teamed up to create a dynamic syllabus that we envisage will benefit those new and experienced alike. Our courses are designed in such a way that they employ audio, visual and kinaesthetic methods to help students of all backgrounds to easily grasp concepts which may otherwise seem to be complexed in nature.

OUR HISTORY

We are still a fledgling organisation, however with the permission and guidance of Allah the Exalted, we have successfully launched a number of courses in Camden, Redbridge, Whitechapel, Luton and Exeter. We pray to His Majesty for acceptance of our efforts and further success in the future.

ARABIC AWAKENED

The Arabic Awakened programme is an intensive Sunday programme, which runs over the course of one year, designed meticulously by advanced graduates and scholars of Islamic Sciences and the Arabic Language.

At Q-Iman we have a passion to teach the Arabic Language and have taken our drive to produce a course that delivers Arabic to students who cannot commit to a full-time course. Students will be required to attend once a week, every Sunday, at our London campus for a whole day of Arabic studies. The modules encompass different aspects of Arabic, ranging from grammar, recitation, application and speaking.

The course is divided into three terms and forty weeks of on-campus learning. However, Q-Iman has taken a step further to supplement student education by launching online workshops, that students will be able to participate in, to support their learning. Although classes will run on-campus on Sundays, the online workshops will run throughout the week during the evenings, for the convenience of students who may be occupied with work or other study programmes.
